

PRESS RELEASE

TotalEnergies Lubrificants Lubmarine

Lubmarine reveals new digital services platform to optimize vessel performance.

Paris, September 27, 2022 – Marine engines are the most valuable assets of any vessel. With new regulations, engine designs and a wide variety of fuels, lubrication and maintenance of these engines is becoming ever more complex and challenging.

The digital services from Lubmarine offer onboard vessel equipment and engine performance insights, engineer support, as well as a dedicated portal to access vessel and business data. The platform is easy-to-use and provides intelligent online insights that can be used both by onshore staff and offshore crew at the same time.

The new suite of services includes:

LubPortal: offers a central resource for all stakeholders on every vessel asset to help manage and optimize vessel operations, from equipment monitoring to lube oil procurement.

LubInsight: helps vessel owners and operators to improve the way they manage their equipment and engine lubrication with on-board equipment.

LubDiag: offers a range of in-depth assessments on lubricant condition and how your equipment and engine is performing with laboratory analysis.

LubSkills: offers a range of support services and technical expert insights from engine inspection and issue investigation, through to bespoke training for better lubrication and equipment knowledge-share.

Arnaud Guichard, General Manager at Lubmarine, a division of TotalEnergies Lubrificants, says: “We recognize the importance of data and we have engineered a range of digital solutions on the basis that companies need to streamline daily operations so vessel operators can focus on what matters most at sea; delivering cargo safely, efficiently and on time.”

About the Marketing & Services division of TotalEnergies

TotalEnergies' Marketing & Services business segment offers its professional and private customers a wide range of broad energy products and services—petroleum products, biofuels, charging and related services for electric vehicles, gas for road and maritime transportation—to support them in their mobility and help them reduce their carbon footprint. Every day, over 8 million customers visit our 16,000 service-stations all over the world. As the world's number four in lubricants, we design and sell high-performance products for the automotive, industrial and maritime sectors. And to provide the best response to the needs of our B2B customers, we deploy our sales forces, our international logistics network and our diverse offering. We operate in 107 countries, where our 31,000 employees stand close to all of our customers.

About TotalEnergies

TotalEnergies is a global multi-energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to energy that is ever more affordable, cleaner, more reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.
